COVID-19 DAILY UPDATES

How does the percentage of ED visits for COVID-like illness compare between regions of the state?

What level of care did patients admitted to a hospital in the PHE network require?

Patients who are admitted to the ICU versus other parts of the hospital require a higher level of care, may require a ventilator to help them breath, and are more likely to die from their illness.

The percentage of patients requiring ICU level of care **INCREASED** the week ending September 26, 2020.
