	McDowell	1,428	34
	Mitchell	301	4
	Rutherford	1,844	67
	Yancey	365	2

The US surpassed 103,000 new COVID-19 cases, the highest single-day count, according to The COVID-19 Tracking Project on Wednesday, November 4, 2020.

Cases of the virus in the US have been on the rise, consistently breaking previous records. The seven-day average is about 86,363. According to data from John Hopkins University, that is more than twice what it was on September 4, just two months ago.
