## **Madison County Social Services Board approves Resolutions!**

This month, the Madison County Social Services Board approved three resolutions to promote awareness of elder abuse, foster families and Older Americans month.

### **Vulnerable Adult and Elder Abuse Awareness Month**

The period of time from May 8, 2022 (Mother's Day) through June 19, 2022 (Father's Day) is recognized statewide each year as Vulnerable Adult and Elder Abuse Awareness month.

Madison County residents are encouraged to watch for signs of abuse such as physical trauma, withdrawal, depression, anxiety, fear of family members, friends or caregivers. Anyone who suspects that a vulnerable or older adult is being abused, neglected or exploited and is in need of protection is required by North Carolina General Statute to report this information to the department of social services in the county where the adult resides.

To make a report, call the Madison County Department of Social Services at 828-649-2711 during regular office hours. After hours, on weekends and holidays, call the Madison County Sheriff's Department at 828-649-2721 and ask them to contact a social worker.

### **Older Americans Month**

To acknowledge the important contributions of older Americans to our county and to our way of life, the month of May is recognized each year as Older Americans Month.

According to 2020 Bureau of Census information, residents above the age of 60 account for 31% of the population (6,627 individuals) in Madison County. Additionally, Madison County has more residents above the age of 60 than under the age of 17 (3,634 in the birth to 17 age group).

The Madison County Department of Social Services provides a number of programs to benefit our older residents such as the State/County Special Assistance and Special Assistance In Home programs, Adult Protective Services, Guardianship, Representative Payee services, Adult Home Specialist, Veterans Services, the In Home Aide program, congregate nutrition at our Active Living Centers and Home Delivered Meals.

### **Foster Care Month**

12 foster families in Madison County have opened their homes and hearts to children who are in crisis. These families play a vital role in helping children and families heal and launch children into successful adulthood.

Foster families are an invaluable resource and perform an extraordinary service by working in partnership with child welfare and other professionals to nurture children and provide an opportunity for healthy growth and development while ensuring safety and well-being, and sometimes by providing permanency through adoption.

Madison County residents are encouraged to consider if they could help children by becoming a licensed foster parent or share their talents, energies and resources on behalf of Madison County's foster children in some other way.

For additional information, please call 828-649-9498 and ask to speak with Rebecca Parker.
