Home and Community Care Block Grant for Older Adults Outreach Methodology

July 2023 through June 2024

Outreach Methodology to Address the Service Needs of Target Population

Community Service Provider:	Madison County DSS and MCTA
County:	Madison

While all older adults age 60 and over are eligible for services, sec. 305(a)(2)(E) of the Older Americans Act requires programs to target services to older individuals with the greatest economic and social need, (with particular attention to low-income older adults, including low-income minority older adults, older adults with limited English proficiency, and older adults residing in rural areas). The community service provider shall specify how these service needs will be met through the services identified on the Provider Services Summary (DAAS-732). This narrative shall address outreach and service delivery methodologies that will ensure that this target population is adequately served and conform with specific objectives established by the Area Agency on Aging, for providing services to low income minority individuals. Additional pages may be used as necessary.

The Congregate Nutrition, Home Delivered Meals and In Home Aide programs are administered by the Madison County Department of Social Services (DSS). The General and Medical Transportation programs are administered by the Madison County Transportation Authority (MCTA). Madison County is a large, rural county. There are 8 active living centers located throughout the county to ensure access for seniors living in the most isolated areas. Each center provides lunch four days a week, along with the opportunity to participate in activities such as arts and crafts, gardening, board games, exercise, informational and motivational speakers, field trips, etc. Access to transportation is crucial for seniors and allows them to make trips to the grocery store and medical appointments. Many seniors using county transportation services have no other means of travel. Seniors depend upon transportation services for their well being and quality of life. The in Home Aide program provides socialization, as well as much needed assistance with light housekeeping, running errands and getting groceries for homebound seniors. Efforts at outreach include: local newspaper and radio ads, social media, information on the Madison County Government website, and colorful, printed brochures detailing these services and placed throughout the county where seniors would likely see them.
